

## Covid Precaution Phases

Each phase is tied to the CDC Covid-19 Community Level, which synthesizes data based on number of cases per 100,000 people, hospital admissions, percent of staffed inpatient hospital beds utilized, and number of deaths. The website will always indicate the current phase. Additionally, signs will be posted on the doors of the building and the information will be publicized via email and the telephone tree, as well as in the Sunday Worship Bulletin.
